HFX600 Deep (Water) Well Drilling Rig

Quotation

No.	Picture	Product Description	Total Amount
1		Double unit head Crawler Type Drill depth:600m Diameter::200-550mm Engine:129KW For water well drilling	USD 126,830 FOB Qingdao port,China

Specification

HFX600 hydraulic water well drilling rig uses full hydraulic control ,and the top drive to drive the rotation of drilling tools with very high drilling efficiency ,reasonable overall layout uses the crawler mounted or full ground chassis for transportation with good maneuverability ,very flexible in difficult roads and can be widely used in many fields such as resource exploration of hydrology wells ,coalbed methane,shallow layer of shale gas ,terrestrial heat,etc and can also be used for coal-mine gas exploitation or salvage work.

The top-mounted driving head principal shaft has a great drift diameter,suitable for many kinds of construction work such as slurry drilling ,air drilling ,and air foam drilling ,meeting the demands for well-drilling at different terrain strata.

Compact structure of the whole machine with small dimensions meet the requirement of drilling in limited space and tunnel transportation.

With two optional drive modes of the drive unit ,the drilling rig has a wide adaptability of strata.
 Extendable mas (or optional box-type mast) is adopted to meed the requirement of long casing drilling construction ,which improves the working efficiency.

Integrated visualized pressure feeding system can regulate the drilling pressure accurately according to the drilling depth.

With the configuration of 4 hydraulic supporting legs,it can realize rapid horizontal adjustment and transportation without crane.

Rotational centralizer provides extensive operating space.

Drilling capability	Drilling depth	m	600
	Drill rod	mm	89/102
	Max diameter of work floor	mm	550
Feeding system	Max lifting capacity	KN	260
	Max feeding capacity	KN	120
	Max lifting speed	m/min	30
	Max feeding speed	m/min	60
	stroke	mm	6600
Top drive	Max torque	N.m	9200
	speed	R/min	0-200
	I.D	mm	55
	Rated power	KW	129
Tool winch	Hoisting capacity	KN	15
	Max speed	M/min	30
Breakout device	Max breakout torque	N.m	36000
	Vise clamping range	mm	customized
Mud pipe	Internal diameter	mm	55
	pressure	Mpa	8
Chassis	Drive mode		Crawler chassis
	Highest speed	Km/h	3.3
	Max climbing gradient	%	39
Dimension	Working dimension	mm	4400X3200X9300
	Transportation dimension	mm	5950X2100X2630
	weight	T	12.5

Fitting list

Main Machine with drill pipes						
Product	Picture	Specifications	Unit	Quantity	Unit price	Total price
HFX600		600 meters depth; 450mm hole diameter	set	1	79,820	79,820
drill rod		Drill rod 89mm*6m (R780 materials, API standard)	pc	100	195	19,500
Drill Tools to work with mud pump						
tricone bit		17in	piece	1	4,850	4,850
three-win gs bit		18in	piece	2	430	860
mud pump		BW850/5 mud pump with diesel engine	set	1	21,800	21,800
Total price(USD)					126,830	

Payment terms

- I .Delivery time: **15-20 days after received 30% of the whole payment.**
- II .Payment term: **30% as down payment by T/T, the balance of 70% should be effected when the machine is ready.**
- III. Valid time: **This quotation is valid for 14 working days.**
- IV .Quality Guarantee Terms: Quality guarantee term is for one year. Malfunctions which are caused by machine-self and quality will be responsible for our manufacturer. Other malfunctions which are caused by operation mistakes, man-made problems, etc will be responsible for clients-self.

Bank Information:

(Notice please : the following bank information is our the only specified payment account ,We will not ask for change of payment account at any time as well as Email)

BENEFICIARY: ZHENGZHOU HANFA PROSPECTING MACHINERY CO.,LTD

ADDRESS:NO. 7, DONGQING STREET, HIGH-TECH ZONE, ZHENGZHOU CITY, HENAN PROVINCE, CHINA

TEL: 0086-371-55019184

FAX: 0086-371-55019599

• ABOUT US •

Professional Drilling Rig Manufacturer and Exporter

Hanfa group was established in 1998. Is a set of scientific research, production, sales as one of the mechanical equipment manufacturers. It has experienced engineers, professional R&D team, special after service team, world class sophisticated equipment and advanced technology guarantee the best quality Machinery and best service to its customers.

With nearly 20 years' development, Hanfa group owns a number of cubic press design and manufacturing patents, which is able to provide professional cubic press to meet customers' multiple process requirements on all kinds of super-hard materials.

... welcome ...

Accessories Supply

1. Are you manufacturer?

We are professional manufacturer, and our factory mainly produce water well drilling rig, core drilling rig, DTH drilling rig, piling rig, etc. Our products have been exported to more than 50 countries of Asia, South America, Africa, and get a good reputation in the world.

2. Are your products qualified?

Yes, our products all have gained ISO certificate, and we have specialized quality inspection department for checking every machine before leaving our factory.

3. How about your machine quality?

All of our machines hold the ISO, CE certificate, and each set of machine must pass a great number of strict testing in order to offer the best quality to our customers.

4. Do you have after service?

Yes, we have special service team which will offer you professional guidance. If you need, we can send our engineer to your working site and provide the training for your staff.

5. What about the quality warranty?

We offer one-year quality warranty for machines' main body.

6. How long can you deliver the machine?

Generally, we can deliver the machine in 7 -15 days.
